

Planting trees, growing communities.

# FREE PRESENTATION | Protect Your Oak Trees from Oak Wilt Disease

Oak Wilt is killing oak trees in Michigan and the problem is getting worse.

Join us to learn how you can protect your trees from oak wilt. Dr. David Roberts, Ph.D., Michigan State University, College of Agriculture and Natural Resources, is a Plant Pathologist who will explain:

- What oak wilt is
- What trees are affected
- What does (and does not) cause it to spread
- How to protect your trees
- Important dates and restrictions
- Removal, disposal, transport, and storage of diseased oak wood
- Guidelines for hiring a tree service or arborist

Please join us!

Chikaming Township Hall,  
13535 Red Arrow Highway  
Harbert MI, 49115

Thursday, October 19  
6PM - 8PM
